Re: Ponderosa Landfill Cell Construction Tour

PONDEROSA LANDFILL TOUR – 4:00 PM, SEPTEMBER 18

(SLIGHTLY LATER THAN REGULAR MEETING TIME)

At the May meeting the ESAC discussed a tour of the liner construction for the new cells at the Ponderosa Landfill. Cells 8 and 9 are a continuation of the mixed municipal solid waste cells.

ESAC members were to tour the landfill on July 17th, due to weather conditions this tour was cancelled. The tour has now been scheduled for September 18th. The landfill construction should be mostly complete by that time, so we will observe the finished product rather than on-going construction. ESAC members should meet at the Landfill Scale trailer to sign in by 4:00 pm on September 18th before proceeding down to the construction area. Please remember that this should still be considered a construction area, and dress appropriately for the tour and weather conditions. We do not expect to do too much walking, but boots may be helpful.

We would like to know how many people to expect, so please contact Vickie Finnegan with the Environmental Services Department at 304-4301 by 5:00 pm. on September 17th if you are not able to attend.

A map to the Ponderosa Landfill has been included. If you have any questions about the meeting, please contact Vickie, Dave Kronlokken, or me.
