

Home Sharps Disposal Program

Needles, syringes and lancets, known as “sharps” can be disposed of properly by visiting the downtown Hy-Vee Pharmacy in Mankato at 410 S. Riverfront Drive.

Sharps will be accepted all hours the pharmacy is open and disposal cost is \$3 per container, any size.

To use this service, please place sharps in either a commercially purchased sharps container, OR place them in a heavy plastic jug with a screw on top, such as a laundry detergent bottle.

NO glass containers that could break, **NO** coffee cans or other containers that can pop open if bent and **NO** loose sharps will be accepted.

Blue Earth County and Hy-Vee Pharmacy are pleased to offer this safe, affordable way to properly dispose of these potentially dangerous items.
