### **NOTICE OF PUBLIC INFORMATIONAL MEETING**

On February 8, 2010, the Blue Earth County Environmental Services hereby gives notice of a public informational meeting regarding the Subsurface Sewage Treatment System (SSTS) Ordinance. This new Ordinance is required by State Statutes, Chapter 115.55 Subp 2 and Minnesota Rule Chapter 7082.

The Subsurface Sewage Treatment System (SSTS) Ordinance authorizes the use and conditions for septic systems servicing unsewered properties in Blue Earth County. It establishes minimum standards for and the regulation of Subsurface Sewage Treatment Systems and defines the standards for installation, inspection, upgrade, repair, replacement or abandonment of septic systems. Copies of the Ordinance may be viewed at the Blue Earth County Library, the MSU library, in the Environmental Services department or on the Blue Earth County website at [www.co.blue-earth.mn.us](http://www.co.blue-earth.mn.us) under Environmental Health. This meeting will give the public an opportunity to comment on the Ordinance before it is submitted to the Blue Earth County Board of Commissioners for public hearing and consideration on March 2, 2010.

The meeting will be held from 4 to 6 p.m. on Feb.18, 2010, in the Prairie Room on third floor of the Blue Earth County Government Center, 410 South Fifth Street, Mankato, Minnesota. There will be an informational presentation at 4:30 p.m. with a question and answer session to follow.
